2017

DECEMBER 2016

Welcome to the SwiftStack Monthly Newsletter!

Hi Colleague,

Tis the season to be grateful for a prosperous year, and to look forward to even more growth and success in 2017. We wish all that read this newsletter tremendous success in the new year, and we thank all of our customers and partners for helping make SwiftStack the fastest growing vendor of private object storage. We look forward to continuing with you on your journey to hybrid cloud in 2017.

Respectfully,

Mario Blandini, VP of Marketing

PRODUCT UPDATE

Since the last newsletter, SwiftStack versions 4.8 and 4.9 have been released and contain new options for erasure coding as well as many other enhancements and fixes. If you want to see what's contained in every release, check out the [release notes](#) in the documentation.

Also take a look at [TMCnet's](#) latest video where they ask us about what SwiftStack has been up to lately.

**PARTNER UPDATE****VERITAS™**

Earlier this month, Veritas released [NetBackup 8.0 with integrated support for SwiftStack](#) and the Swift API. Backing up data to private cloud storage using NetBackup is now even easier. To learn more, check out the [benefits of this solution](#) and the [detailed configuration steps](#).
